Brake, Track and Shock Absorber testlane

JA9500BT-E

The JA9500BT-E is capable of only in 30 seconds to test vehicle brakes, shock absorbers and tracking!

With the JA9500BT-E, the workshop can test the car with the customer, therefore the customer can see any errors or corrections the car should have when servicing.

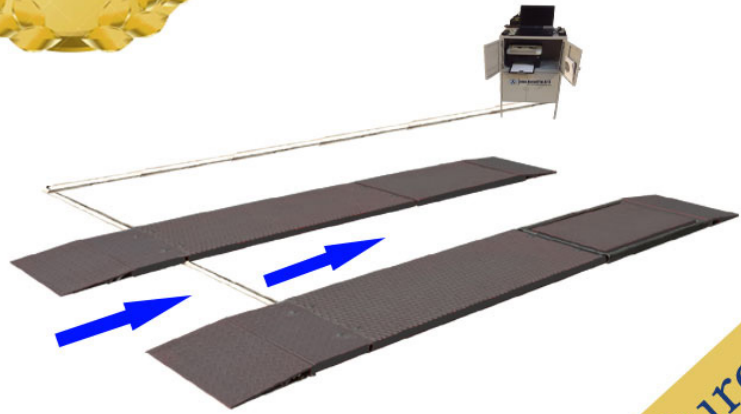

After the test is completed, a test report can be printed showing the condition of brakes, shock absorbers and tracking!
